Wednesday 11th September 2019

Dear Parents/Carers,

After a successful trial carried out in the summer term, we are introducing a new maths resource for pupils to access at home – My Maths.

My Maths is an interactive, online maths learning tool for children of all ages and abilities. It helps your child to develop their understanding of maths through a variety of engaging activities, games and assessments.

Your child's class teacher will set weekly online homework using My Maths to supplement the work that is being carried out in lessons. Your child will be able to access their homework set by their teacher and get instant results by logging in to the online student portal at home. As a parent, you can work alongside your child when they log in to My Maths at home. You will be able to support their learning by seeing what they are working on and checking their progress.

If your child is in the junior school, they will still have access to Times Tables Rockstars, and will be expected to continue practising at least three times a week to improve their recall of multiplication facts, a skill that is vital to ensure progress in all aspects of maths learning.

If you are unsure of how My Maths works, there is a support page at <https://support.mymaths.co.uk> where you can find information for parents and students for common questions and problems. There is also some guidance attached to this letter.

If you have any further problems, please speak to your child's class teacher.

Yours Sincerely,

Miss N Pullen
Assistant Headteacher

Any information that you provide will be handled in accordance with the Data Protection Act, GDPR and Northern Parade Schools privacy policy which can be found on our website.

How to access My Maths

We recommend using My Maths on a desktop PC or laptop to get the best experience. Go to www.mymaths.co.uk and login at the top of the page using your school username and password. On the next page enter your personal username and password in the My Portal box.

Completing your homework

See tasks your teacher has set in the Homework area. If you click on one of the tasks, you will have the option to revise from the lesson first or go straight to the homework. You can try each task as many times as you like. Only your best score for each page of questions will be recorded. Your teacher will be able to see how well you did and when you completed the task. You can see your completed tasks and how you're getting on in the Results area. You can also tell your teacher what you thought of each task by giving it a Rating. For more information on how to complete homework, visit our dedicated Support site. You can access this at any time by clicking Help at the top of the screen.

Tips for accessing My Maths?

Add www.mymaths.co.uk to your list of trusted sites and allow Pop Ups. My Maths uses Pop Ups to help you navigate the site. Activate Flash in your browser. Some of our interactive homework tasks and lessons use Flash. Find out more about activating Flash in the Technical section of our Support site. Download the freely available Puffin Academy app to use My Maths on an iOS or Android tablet. Puffin Academy is a mobile Flash browser for approved educational websites. We are currently moving our interactive content out of Flash and, until this work is complete, you may find that some content does not work on your tablet. The Puffin Academy app will allow you to access all My Maths content on an iOS or Android tablet. For more information on using the Puffin Academy app, visit the Technical section of our Support site. You can access this at any time by clicking Help at the top of the screen after you have logged in.

Any information that you provide will be handled in accordance with the Data Protection Act, GDPR and Northern Parade Schools privacy policy which can be found on our website.
