

Pupils with Medical Needs

Our Inclusion Manager works closely with all staff in School, the School Nurse, parents/carers and a range of outside agencies throughout the city to support all pupils' health and medical needs within school. This support includes:

- Being available to meet with parents/carers to discuss their concerns within a confidential environment.
- Making sure that staff are updated and when necessary receive training and or advice from relevant health professional to meet a pupil's individual needs.
- Ensure staff are aware of individual health care plans and that they are followed.
- Liaise with healthcare professionals when plans need updating or changing.
- Arranging School nurse and Community Asthma nurse' Drop ins' for parents/carers.
- Monitoring the administration of medication including asthma inhalers or arrange training so staff can do so.
- Ensuring that there is access to specialist equipment if necessary.
- Ensuring the environment is as safe as possible and adapted where necessary.
- Applying for extra time to complete exams if and when required.
- Liaise with the School nurse, parents and staff and provide support in writing care plans for pupils with more complex medical needs.
- Support for parents and pupils who require advice from a speech and language therapist, occupational therapist or physiotherapist.
